

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF COPPER RETIREMENT UNDER RULE 51.332
Copper Retirement ID No. 2018-01-A-PA

January 12, 2018

Carrier: Verizon Pennsylvania LLC, 1717 Arch Street, Philadelphia, PA 19103

Contact: For additional information on these planned network changes, please contact:

Janet Gazlay Martin
Director – Network Transformation
Verizon Communications
230 W. 36th Street, Room 802
New York, NY 10018
1-844-881-4693

Implementation Date: On or after, April 1, 2018

Planned Network Change(s) will occur at the following wire center areas in Pennsylvania:

Wire Center	Address	CLLI
CHESTNUT HILL, PA	8318 Germantown Avenue, Philadelphia, PA 19108	PHLAPACH
SARATOGA, PA	5400 Woodland Avenue, Philadelphia, PA 18143	PHLAPASA

Exhibit A to this copper retirement notification provides information about the specific addresses at which the copper network facilities will be retired. Exhibit A addresses may also be viewed on Verizon’s website at <http://www.verizon.com/about/terms-conditions/network-disclosures>

Description of the planned network change(s):

Verizon has been working with the Southeastern Pennsylvania Transportation Authority (“SEPTA”) and the Pennsylvania Department of Transportation (“PennDOT”) to develop a schedule to retire copper in connection with two bridge replacement projects in the City of Philadelphia: 1) for Allens Lane Bridge served by Verizon’s Chestnut Hill, PA wire centers and 2) for the Woodland Avenue Bridge served by the Saratoga, PA wire center. Verizon was recently notified by SEPTA and PennDOT that the bridge replacements will occur on April 1, 2018, which prevents Verizon from meeting the 180-day public notice period under the existing copper retirement rules. Therefore, Verizon has filed for a waiver of those rules. Verizon has deployed its fiber-to-the-home network in the Chestnut Hill and Saratoga, PA areas, and therefore, intends to retire a number of copper facilities in these two wire center serving locations listed in the attached Exhibit A and provide services over the fiber network infrastructure.

Description of reasonably foreseeable impact(s) of the planned change(s):

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities.

Description of any changes in prices, terms or conditions that will accompany the planned change(s):

As a general matter, the retirement of copper facilities will not result in changes to rates, terms, and conditions in cases where the affected service is converted to a like-for-like service that is available on fiber facilities. Interconnecting entities, however, should review the applicable tariff or agreement for certain terms that may apply specifically in cases where the service is provisioned on fiber. In cases where interconnecting entities elect to replace the affected service with an alternative service that Verizon offers on fiber facilities, the rates, terms and conditions will be as set forth in the tariff or agreement under which Verizon offers the replacement service that the interconnecting entity selects. Verizon, separately from this notice, will provide interconnecting entities with further information regarding service migration options that Verizon offers.
